Linux/Ubuntu

EXPERIENCE

Freelance – *Web Developer*

2018 - Present

- I use many technologies and frameworks to write efficient code quickly rather than reinventing recreating something that already exists or reinventing the wheel
- Created multiple websites from scratch using the LAMP stack and modern web development best practices
- Apply best practices and current standards in responsive design
- Collaborate with other developers to develop solutions

Lead Generation System – *Software Engineer*

Current Project

- Uses real-time weather data to predict damages across different regions of the Midwest
- Gathers leads to be sold to contractors

West County Fitness - *Web Developer*

2018 - 2019

- Modernized client's online presence by applying best practice solutions for creating an intuitive and responsive website using Laravel, JavaScript, and CSS
- Increased website traffic 150% and reduced bounce rate by 20%
- Website can be viewed at <https://www.wcffit.com/>

PA National Guard – *Human Resources and Recruiting*

2014 - 2020

- Foster a positive and ongoing relationship with local communities and organizations
- Develop and process highly qualified individuals
- Contract Administration
- Human Resources Processes
- Job Placement Services
